

December 22, 2010

To Whom It May Concern:

I am writing this letter to thank the workers at Saint Vincent Hospital for the excellent care I received on December 19, 2010 in the emergency room. When I arrived at the hospital, I did not even make it to the window and they opened the door and brought me inside. I had a heart catheter on Thursday and I was having numbness in my feet and legs. They immediately started blood work and multiple tests to check for blood clots and stroke. I was there 4.5 hours and every single person I had contact with was wonderful. Sadly, I do not have all the names, but here are the ones I do have:

Dr. Weil

Sasha

Dave-RN

Jennifer- X-Ray

Brittany – Ultrasound

Brittany – Advocate (I did not have a good experience on Thursday in the Cath area, so they sent her to see me).

I have never in my life had myself or heard of anyone having such excellent care in an emergency room. It is wonderful to see people that really care about others and are in the right jobs.

May God send them all an extra blessing this year!

Merry Christmas and Happy New Year!

With Sincere Thanks,
